Yueyang Zhong

Contact Information

Address: Regent's Park, London NW1 4SA, UK
Email: yzhong@london.edu
Homepage: https://yueyang-zhong.com/

Research Interests

Behavioral queueing, Online learning, Healthcare operations, Information and mechanism design

My research spans (1) customer and server behavior in congested service systems; (2) data-driven decision-making for improving operations under limited or evolving information; (3) equitable and efficient resource allocation in healthcare operations; and (4) information and mechanism design for improving outcomes in high-stakes settings such as education, mental health, and AI-driven economy.

Employment

London Business School — London, UK
Assistant Professor, Management Science and Operations — *2024–present*

Yale School of Management — New Haven, CT
The University of Chicago Booth School of Business — Chicago, IL
Postdoctoral Principal Researcher — *2023–2024*
Hosts: Vahideh Manshadi, Rad Niazadeh

Education

The University of Chicago Booth School of Business — Chicago, IL
Ph.D. in Operations Management (Minor in Applied Probability) — *2018–2023*
Dissertation: Many-Server Queueing Models With Applications to Modern Service Operations Management
Committee: Amy R. Ward (chair), John R. Birge, Raga Gopalakrishnan, Ozan Candogan

The University of Chicago Booth School of Business — Chicago, IL
M.B.A. — *2018–2020*

Tsinghua University — Beijing, China
B.S. in Industrial Engineering, B.A. in Economics — *2014–2018*
Honors: *summa cum laude*, *Best Dissertation*

Research Experience

Simons Institute for the Theory of Computing, UC Berkeley — Berkeley, CA
Visiting graduate student in the program *Data-Driven Decision Processes* — *Fall 2022*

Industrial Engineering and Operations Research, UC Berkeley — Berkeley, CA
Undergraduate researcher — *Summer 2017*
Host: Zuo-Jun Max Shen

Publications

Zhong, Y., Gopalakrishnan, R., and Ward, A. R. (2025). Behavior-aware queueing: The finite-buffer setting with many strategic servers. *Operations Research*, 73(1), 290–310.

- Technical Supplement: Some Properties of the Erlang-B and Erlang-C Formulae
- Media Mention: Chicago Booth Review, Smith Business Insight
- Finalist, 2022 INFORMS IBM Best Student Paper Award

Zhong, Y., Birge, J. R., and Ward, A. R. (2025). Learning to schedule in multiclass many-server queues with abandonment. *Operations Research*, 73(6), 3085–3103.

- Media Mention: Chicago Booth Review, London Business School Research Brief Video

Gopalakrishnan, R., and **Zhong, Y**. (2024). Some asymptotic properties of the Erlang-C formula in many-server limiting regimes. *Operations Research Letters*, 54, 107116.

Zhong, Y., Ward, A. R., and Puha, A. L. (2022). Asymptotically optimal idling in the GI/GI/N+GI queue. *Operations Research Letters*, 50(3), 362–369.

Zhong, Y., Bergstrom, Y. M., and Ward, A. (2021). Data-driven market-making via model-free learning. *In Proceedings of the Twenty-Ninth International Conference on International Joint Conferences on Artificial Intelligence*, 4461–4468.

Working papers

(Co-authors underlined are student collaborators, and an asterisk (*) indicates an industrial collaborator.)

"Deep Learning Based Dispatching for Efficiency and Fairness in Emergency Medical Service Systems," with Jinghai He, Cheng Hua, and Tauhid Zaman. In preparation for submission to *Operations Research*. Manuscript available upon request.

- First Prize, 2024 INFORMS Conference on Service Science Best Paper

"AI-Risk Disclosure Is Not One-Size-Fits-All: An Agentic Measurement System and Network Evidence," with Tianhui Li. Submitted to *Manufacturing & Service Operations Management*.

- This work is supported in part by funding from the LBS Data Science and AI Initiative.
- Presentations: MSOM Conference (2026), INFORMS Annual meeting (2026)

"Socioeconomic deprivation and risk of early-onset pre-eclampsia in England: a national population-based cohort study," with Ethan Phillips, Federica Caretta, Harshita Kajaria-Montag, Agni Orfanoudaki, Catherine Aiken*, and Marian Knight*. Submitted to the *BMJ Public Health*.

- This work is supported in part by funding from the Wheeler Institute for Business and Development at London Business School and the UKRI Knowledge Exchange Fund.
- Media Mention: Wheeler Institute Research Brief

"Racing Queues with Strategic Servers," with Andrew Frazelle. Under review at *Operations Research*.

- Presentations: Purdue University (2026, presented by co-author), MSOM Conference (2026)

"Reserving Capacity, Restoring Fairness: Scheduling Elective Caesarean Sections in the English NHS," with Yuhang Du, Catherine Aiken*, and Pedra Rabiee*. Submitted to *Manufacturing & Service Operations Management*.

- Media Mention: Think Article
- Presentations: Cambridge Judge Business School Healthcare Operations Seminar (2026), POMS Annual Conference (2026, presented by co-author), MSOM Conference (2026, presented by co-author), INFORMS Healthcare Conference (2026, presented by co-author)

"Is Continuity All We Need? A Modeling Approach to Evaluating Relational Continuity in Primary Care," with Naireet Ghosh and Nicos Savva. Major revision at *Management Science*.

- Finalist, Pierskalla Best Paper Competition, 2026.
- Accepted to MSOM Healthcare SIG, 2026.
- Presentations: INFORMS Annual Meeting (2024–2025), MSOM Conference (2024–2025), Applied Probability Society Conference (2025), Stanford OIT Seminar (2025, presented by co-author), Cambridge Judge Business School Healthcare Operations Seminar (2025), IMSI Workshop on Advances in Quantitative Medical Care (2026), POMS Conference (2026, presented by co-author), MSOM Conference (2026, presented by co-author), Cornell Johnson (2026, presented by co-author)

"When Strategic Customers Meet Strategic Servers: Individual and Social Optimization in Many-Server Queueing Systems," with Raga Gopalakrishnan and Amy R. Ward. Resubmitted after Major revision at *Operations Research*.

- Presentations: INFORMS Annual Meeting (2023–2025), MSOM Conference (2024–2025), Applied Probability Society Conference (2023,2025), European Technology & Operations Management Day (2025), INFORMS International Meeting (2025, presented by co-author), EURO (2025, presented by co-author), CORS Annual Conference (2025, presented by co-author), Young European Queueing Theory Theorists (2025), University of Edinburgh School of Mathematics (2025), Tsinghua University School of Economics and Management (2026), CUHK-SZ SDS Colloquium (2026, presented by co-author), CUHK Department of Systems Engineering and Engineering Management (2026, presented by co-author), CUHK Business School (2026, presented by co-author), HKU Business School (2026, presented by co-author), University of Science and Technology of China (2026, presented by co-author), NUS Business School (2026, presented by co-author), SMU (2026, presented by co-author), Boston College Carroll School of Management (2026), Boston University Questrom School of Business (2026), University of Miami (presented by co-author), Chicago Booth (presented by co-author), UCLA Anderson (presented by co-author), University of Toronto Rotman School (scheduled, presented by co-author)

"Queueing versus Surge Pricing Mechanisms: Efficiency, Equity, and Consumer Welfare," with Zhixi Wan and Zuo-Jun Max Shen.

- Finalist, 2021 INFORMS Conference on Service Science Best Student Paper Award
- Presentations: INFORMS Conference On Service Science (2021), INFORMS Annual Meeting (2021–2023), POMS Annual Conference (2021–2023), Mechanism Design for Social Good (2023), Marketplace Innovation Workshop (2023), Lyft Rideshare Seminar (2023)

Selected Work in Progress

Phantom Waitlists in Childcare, with Jun Li and Senthil Veeraraghavan.

Robust Long-Run Policy Learning from Unreliable Platform Experiments, with Cong Zhang. In preparation for submission to *Management Science*. Manuscript available upon request.

Continuity of Care on Mental Health Platforms: A Field Experiment on Behavioral Nudges, with Sidika Tunc Candogan and Guang Cheng. In preparation for submission to *Management Science*.

- This work is supported in part by funding from the Wheeler Institute for Business and Development at London Business School.

The Impact of System Congestion on Maternal and Neonatal Outcomes in England, with Pinelopi Stamou, Federica Caretta, Harshita Kajaria-Montag, Agni Orfanoudaki, and Catherine Aiken*.

- This work is supported in part by funding from the Wheeler Institute for Business and Development at London Business School and the UKRI Knowledge Exchange Fund.
- Presentations: IMSI Workshop on Advances in Quantitative Medical Care (2026), LORD (2026), INFORMS Annual meeting (2026), ISA International Conference (2026)

A Planning Tool to Balance Fairness and Efficiency for Maternity Services in the NHS, with Yuhang Du, Catherine Aiken*, and Pedra Rabiee*.

Incentivizing Home Births, with Ines Abddaim and Stefan Scholtes.

Strategic Servers in Observable Queues, with Iris Ye and Amy R. Ward.

Regulating Uncertain AI R&D, with Cong Zhang. In preparation for submission to *Management Science*. Manuscript available upon request.

Dynamic Information Design for Engagement, with Vahideh Manshadi and Rad Niazadeh.

Inverse Approximate Linear Programming, with Parshan Pakiman.

Learning to Price in a Congested Queueing System with Unknown Utilities of Strategic Customers, with Shayan Roofeh.

Mapping the AI Talent Landscape: Mobility Patterns and Business Implications, with Jacob Xiangyu Jin and Bryan Sitong Li.

Teaching Experience

London Business School, Instructor

Data Analytics for Management (Masters in Management core)	*Fall 2024, 2025*
Data Analytics for Managers (MBA core)	*Fall 2025*
Queueing Theory (PhD)	*Summer 2026*

The University of Chicago Booth School of Business, Teaching Assistant

Applied Regression Analysis (MBA core)	*Fall 2020, Fall 2021*
Operations Management: Business Process Fundamentals (MBA core)	*Winter 2020*
Managing Service Operations (MBA elective)	*Winter 2022*

Seminars and Conferences

2026 Tsinghua University (School of Economics and Management), IMSI Workshop on "Advances in Quantitative Medical Care", Boston College Carroll School of Management, Boston University Questrom School of Business, Durham University Business School, MSOM Conference, Rotman Young Scholar Seminar Series, INFORMS Annual Meeting.

2025 Cambridge Judge Business School, European Technology & Operations Management Day, Workshop on Information and Learning, Applied Probability Society Conference, MSOM Conference, INFORMS Annual Meeting, Young European Queueing Theorists workshop, University of Edinburgh (School of Mathematics).

2024 Purdue University (Daniels), Tsinghua University (School of Economics and Management), MSOM Conference, INFORMS Annual Meeting

2023 Zhejiang University (Center for Data Science), University of Toronto (Rotman, Young Scholar Seminar Series), Lyft (Rideshare Seminar), INFORMS Annual Meeting, Applied Probability Society Conference, MSOM Conference, Kellogg-Booth OM Conference, Marketplace Innovation Workshop, POMS Annual Conference

2022 Cornell University (Young Researchers Workshop), NYU (Stern, MOILS Seminar), INFORMS Annual Meeting, International Conference of the Chinese Scholars Association for Management Science and Engineering Mechanism Design for Social Good (CSAMSE), CORS Annual Meeting/INFORMS International Conference, POMS Annual Conference

2021 UCSD (Mathematical Sciences, Stochastic Systems Seminar), INFORMS Annual Meeting, MSOM Conference, POMS Annual Conference, IJCAI-PRICAI

2020 INFORMS Conference on Service Science, INFORMS Annual Meeting, Mechanism Design for Social Good (MD4SG)

Industry Experience

CLEARCOGS — Chicago, IL
Part-time Consulting — *Feb 2023–May 2023*

Pinterest Labs — Remote
Research Intern, Ads Marketplace team — *June 2021–Sept 2021*

Blue Fire Capital, LLC — Chicago, IL
Research Intern, Data Science Group — *July 2019–Sept 2019*

DiDi — Beijing, China
Research Intern, Research Center of Innovation and Operations — *Jan 2018–July 2018*

Academic Service

Community Service

- Journal ad-hoc reviewer: *Operations Research*, *Management Science*, *Manufacturing & Service Operations Management*, *Mathematics of Operations Research*, *Queueing Systems*, *Stochastic Systems*, *INFORMS Journal on Computing*, *Operations Research Letters*, *Production and Operations Management*, *Journal of Applied Probability*, *Applied Probability Journals*, *Service Science*, *European Journal of Operations Research*.
- Conference reviewer: *INFORMS Conference on Service Science*, MSOM SIGs, ACM Conference on Economics and Computation (EC), ACM Conference on Equity and Access in Algorithms, Mechanisms, and Optimization (EAAMO).
- Guest Associate Editor for the 2025 Supply Chain Management SIG + M&SOM 1RR Initiative, Guest Associate Editor for the 2026 Service SIG + M&SOM 1RR Initiative.
- Judge: George Nicholson Student Paper Competition (2024–2025), POMS College of Supply Chain Management Best Student Paper Competition (2025), POMS-HK International Conference Best Student Paper Competition (2026).

Grant Reviewer

- Research Grants Council (RGC) of Hong Kong

School Committee Service

- Departmental LinkedIn Page Launch & Management, London Business School *2026*

- MSO Faculty Recruiting Committee Member, London Business School *2025*

Conference/Workshop Organizer

- Co-Chair, Workshop on Information and Learning *2025*
- Organizing Committee Member, MSOM Conference *2025*
- Co-Chair, INFORMS Healthcare Conference Applied Probability Cluster *2026*

PhD Student Supervision

Naireet Ghosh (London Business School; committee chair: Jérémie Gallien, Francis de Véricourt). Graduated Summer, 2025
Initial employment: Assistant Professor at Naveen Jindal School of Management, UT Dallas

Yuhang Du (London Business School; committee chair: Jérémie Gallien and George Qi Chen). PhD student.

Jacob Xiangyu Jin (London Business School; co-advised with Alex Yang, Helen Wang). PhD student.

Iris Ye (Chicago Booth; co-advised with Amy Ward). PhD student.

Pinelopi Stamou (Oxford Saïd Business School; co-advised with Agni Orfanoudaki and Harshita Kajaria-Montag). PhD student.

Tianhui Li (Renmin University of China). PhD student.

Leo Lee (London Business School). PhD student.

Honors and Awards

British Academy/Leverhulme Small Research Grants	*2026*
LBS Data Science and AI Initiative Research Grant	*2026*
Knowledge Exchange Fund, UKRI	*2025*
Research Grant, Wheeler Institute for Business and Development	*2025*
Research and Materials Development (RAMD) Fund, London Business School	*2024–2026*
Finalist, IBM Best Student Paper Award, INFORMS	*2022*
Finalist, Best Service Science Student Paper Award, INFORMS Conference on Service Science	*2021*
Graduate Council Research & Personal Development Fund	*2022-2023*
The Joseph A. and Susan E. Pichler Fellowship	*2022–2023*
The Wesley Pickard Endowed Fellowship	*2019–2020*
Ph.D. Fellowship, Booth School of Business	*2018–2023*
Distinguished Undergraduate Thesis Award, Tsinghua University	*2018*
Outstanding Undergraduate Award, Tsinghua University	*2018*
First Prize, Chinese Physics Olympiad	*2014*
